Earl.

I called you on Friday at the direction of Potlatch to start a discussion on the estimated costs to

complete the construction of the Potlatch property transitions and also the section of shoreline on the Potlatch property. My understanding is that it would be beneficial to the current negotiations if we can come to an agreement on the costs early this week – to that end, I am sending you the estimate that we have prepared for the work and two drawings depicting the basis for our calculations.

It would be beneficial if you were able to provide me your basis for the estimated cost as well. Please let me know if you have any questions and if you will be able to meet in the next day or so to discuss the estimates.

Thank you.
